Prominent bodies, such as the EU Scientific Committee on Food, the FDA in the United States and the JECFA of the WHO, have all confirmed the use of Dimethyldicarbonate in the food industry. The production of DMDC is certified according to ISO 9001:2000 and ISO 14001:2005.

National licenses for the use of Velcorin® in manufacturing beverages including compliance for import/export activities are to be clarified on the part of the converters.
